

What are the current 2025 U.S Foreign Embassy document filing fees?

These are the current 2025 U.S Foreign Embassy document filing fees for non-Hague Member Countries.

These fees change often and the Embassies don't update their websites regularly so contact us to verify these fees. We do not markup the cost one single penny on any of these required embassy document fees please note.

The Embassy document filing fees below are not included in our stated rush document legalization service prices, so please add these fees per personal or business/corporate document when ordering.

You cannot pay these fees or send us a check, money order, cash, or cashier's check.

You must pay these embassy fees plus our rush document legalization service costs with any major credit or debit card, PayPal, Venmo, Cash App, or crypto.

***For all United Arab Emirates (UAE) documents you must pay the UAE Embassy document filing fee plus our rush service fee plus \$27.23 more** for the required UAE Embassy online payment fee that is charged to everyone.

The UAE only accepts online payments so you (we) have to pay this \$27.23 government fee/tax to be able to legalize documents through the UAE Embassy.
