

Do I have to send my original documents to be federally apostilled or authenticated at the USDOS?

Yes.

The United States Department of State **only accepts original documents** that are **in all English**, with the lone exception being an FBI criminal background check report.

When you order an FBI criminal background check or FBI identity history summary online, you will be given a link to download your federal criminal history report as a PDF document. You can then email that original PDF to us to print it out and then we'll rush file it with the U.S Department of State on your behalf.
