

Does your expedited federal apostille service pricing include return shipping?

No, return shipping costs are separate.

We don't believe in a one-size-fits-all package to hide the true cost of our international apostille services as almost all other national apostille companies do. With your order, you must provide Apostille Texas with a prepaid return FedEx or UPS shipping label along with your original documents and our federal apostille service order form that you mail or email us.

You can create and purchase a prepaid return FedEx or UPS shipping label online in a few minutes at [FedEx.com](https://www.fedex.com) or [UPS.com](https://www.ups.com) without needing to set up or have an existing account with them.
