

# Where Can I Order a Texas DPS Driving Records Report At?

If you need to order a Texas Department of Public Safety (DPS) **driving records report** to be apostilled for use in a foreign country.

Please go to the links below for more information and contact the Texas Department of Public Safety directly to help you with ordering the driving records report that you will either email or mail us to rush apostille once you receive back from the state. The TXDPS website states: *"The requested Driver Records are available to print immediately after successful payment. You may also choose to receive the Driver Record by email. This service does not provide an option to have the Driver Record mailed to you."*

Make sure you **order a DIGITAL/ELECTRONIC/DOWNLOADABLE PDF version** of your Texas Department of Public Safety driving records report so you can simply email the PDF report to us to rush apostille for you.

You **MUST email us your FULL PDF REPORT with ALL pages** that will always include the state seal and signature of the state employee who signs every TXDPS driving report (see example of a [report here](https://www.apostilletexas.org/texas-dps-driving-records-apostille/) **<https://www.apostilletexas.org/texas-dps-driving-records-apostille/>**). If you do not email us the full report with the state seal and state employee signature on it your document will be rejected by the TXSOS and you will have to pay us a second time to refile a new corrected document.

You **CANNOT** email us any scanned documents meaning **YOU** cannot scan your TXDPS driving records report and email it to us nor can you email us any .jpeg or .png file. **The ORIGINAL driving record report PDF that was issued by TXDPS only!**

Otherwise, if you do not choose the **downloadable/electronic/PDF option** (mailing you the Texas driving records report is the TXDPS default option) the TXDPS will USPS MAIL you the original hard copy of your Texas driver records check report.

Then you will be forced to MAIL us the original driving record report to apostille which will waste your time and money.
